Irrigation and Drainage Systems **8**: 277–278, 1994.

CONTENTS Volume 8 1994

Volume 8 No. 1

GALLICHAND, J.: Numerical simulations of steady-state subsurface drainage with vertically decreasing hydraulic conductivity 1
LEBARON, A.D.: Profitable small-scale sprinkle irrigation in Guatemala 13
HASHEMINIA, S.M.: Controlling runoff under low pressure center pivot irrigation systems 25
LATIF, M. & SARWAR, S.: Proposal for equitable water allocation for rotational irrigation in Pakistan 35
SIVANAPPAN, R.K.: Prospects of micro-irrigation in India 49
Announcements 59

Volume 8 No. 2

BURTON, M.A.: A simulation of water allocation policies in times of water shortage 61
ZHU HUIZHU: Cable-stayed conveyance structure in irrigation areas of China 83
PENG SHIZHANG, LI SHOUSHENG, XU GOULANG & WU ZIJING: New water consumption pattern of rice under water-saving irrigation 97
BATTIKHI, A.M. & ABU-HAMMAD, A.H.: Comparison between the efficiencies of surface and pressurized irrigation systems in Jordan 109
MOHAMED FAWZY BAKRY: The improvement of hydraulic efficiency of irrigation systems with particular reference to biological control method 123

Book Review

Clemmens, A.J., Bos, M.G. & Replogle, J.A., *Flume: Design and calibration of long-throated measuring flumes, Version 3.0.* (JOHN SKUTSCH) 135

Volume 8 No. 3

HAMMOND MURRAY-RUST, D & EDWARD J. VANDER VELDE: Changes in hydraulic performance and comparative costs of lining and desilting of secondary canals in Punjab, Pakistan 137
MOHAN S. & ARUMUGAM N.: Irrigation crop coefficients for lowland rice 159
ZHOU MINGYAO: Group Analytic Hierarchy Process (GAHP) – Fuzzy method for evaluation of irrigation district management 177
JORGE CHAMBOULERYON: Determining the optimal size of water users' associations 189

Volume 8 No. 4

MURRAY-RUST, D.H. & VANDER VELDE, E.J.: Conjunctive use of canal and groundwater in Punjab, Pakistan: management and policy options 201
PURKEY, D.R. & WALLENDER, W.W.: A review of irrigation performance assessment in California 233
